

MOULDINGS

AMERICAN WHITE OAK

AVAILABLE GRADES:-

FAS/FAS 1FACE 80/20  
83% of one face free of defect such as knots, wane and sap

PROPERTIES

BOTANICAL NAME	Quercus alba
PHYSICAL/STRUCTURAL PROPERTIES	Good strength properties
MOISTURE CONTENT	8 - 10%
TYPICAL APPLICATIONS	Furniture, construction, joinery - windows, internal doors, internal cladding, interior flooring and mouldings
DENSITY	770 kg/m³
WASTAGE ALLOWANCE 40% RECOMMENDED	25 - 40%
ORIGIN	North America
DURABILITY	Durable
ENVIRONMENTAL CREDENTIALS	FSC available
STORAGE ADVICE	Product needs to be kept undercover in dry conditions
SUPPLIED FINISH	Sawn boards or machined to profile
WORKING PROPERTIES	Variable in working properties according to rate of growth, slow grown material provides a smooth finish. Stains and takes nails/screws well
STABILITY	Stable for internal applications, although for external applications if timber is not acclimatised can have a tendency to swell due to low initial moisture content
