

STRUCTURAL SOFTWOODS
GLULAM

AVAILABLE GRADES:-

Glulam GL28C non visual (EN 14080).
Supplied Wrapped each piece.
Also available in other grades and different species on enquiry
Main stocked sizes supplied in 12m length, but can quote on other sizes.

PROPERTIES

BOTANICAL NAME	Species <i>Picea abies</i> (other species available)
PHYSICAL/STRUCTURAL PROPERTIES	May be lighter and more resistant to chemical attack than concrete or steel.
MOISTURE CONTENT	12%
TYPICAL APPLICATIONS	Roof and floor beams, trusses, load bearing columns in large volume buildings such as schools, churches, supermarkets and swimming pools.
DENSITY	485kg/m³
ORIGIN	Europe / Scandinavia
DURABILITY	Durable in most applications. Moisture content more than 22% likely to require provision of ventilation and avoidance of moisture traps
PURCHASING CYCLE	3 weeks
ENVIRONMENTAL CREDENTIALS	FSC / PEFC
STORAGE ADVICE	Store dry and undercover. Care should be taken to avoid sunlight as irregular fading can not be recovered easily.
