- 25mm

### ENVIRONMENTAL CREDENTIALS

**Certification**

MTCC or similar accreditation

**Origin**

South East Asia

**TECHNICAL INFORMATION****Physical Structure**

It has superior bending, flexibility and crushing strength than that of European Oak, although it is not as hard

**Durability**

Moderately durable

**Moisture Content**

12-14% Kiln Dried

**Working Qualities**

Works well with a smooth finish when machined, takes a stain or coating well

**Storage Advice**

Product needs to be kept undercover in dry conditions

**Wastage Allowance**

25 – 40%

**Stability**

Kiln dries well with little distortion, remains stable in the majority of joinery applications
